# A Message From the Publisher

Hello. It is now my pleasure to welcome you to the third edition of the TBR Artist Coloring Book. I told the story last time of how this book came to be. In the event that you missed it, I will repeat it because it has proven to be one of our better ideas. The artists have congratulated us and the public has been engaged in this artistic pursuit.

This was the spring of the novel coronavirus pandemic, of course, and all those whose jobs were considered non-essential were to shelter in place and work remotely if possible. As a media business, composed of newspapers, website and social media platforms, we WERE considered essential and needed to convey vital information to the community. So while we closed our doors to the public, we remained at our posts, some of us remotely, and carried on communicating with the residents.

But we wondered what our residents were doing in isolation of their homes. What else could we offer them to make the time more enjoyable?

Since our founding in 1976, we have been impressed with how many talented artists live and work in the area. As a result, we have given regular coverage to the arts in our publications, and have enjoyed positive feedback for doing so from our readers. We have also built up a following of dedicated colorists over the years, who have participated in our coloring contests and presented us with beautifully finished sketches.

So we put the two ideas together. We invited the many artists to send in their favorite sketches for coloring, and we invited our community to become totally immersed in that art by coloring the sketches and thereby sharing in the artistic creativity.

We are deeply grateful to Bank of America for underwriting this idea by helping to promote our artists and to make artists out of our readers.

Art appreciation has never before been so much fun! Enjoy!

Leah S. Dunaief
